

Initially this land occupied by Itesots. It had divisions Teso A, B and C. In Teso B the people here used to locally brew alcohol(malwa). And because of this, the name changed from Teso B to Teso Bar(Drinking Joint) in the 1970's. With this drinking activity, this place attracted Nubians, Alurs, Itesots for Livelihoods. In 1986, Teso Bar was then change to Tetugu, a lango word to mean Under the Palm Tree. Tetugu name came from the fact that people used to sit together under palm trees to drink hence the name Tetugu.
